Burstall Carpet Bowls Report May 2022

After an enforced break of around 19 months because of Covid we decided to return to play and started having rollups around September last year (2021) numbers slowly increased with members returning, some playing with face masks for their own comfort and a fair use of antiseptic wipes for the bowls and hand gel while playing. We followed the Government and Engish Carpet Bowls Association guide lines.

During October the Suffolk Carpet Bowls Association decided to try and run a Triples League and 24 teams around Suffolk took part bowling from November through to April, and we were one of those, 4 groups were formed and we kept local meaning less travelling in a difficult time. We played with a mixture of the strongest and weakest clubs in the county and we finished a good second in our group. Well done all who played.

We have just entered the Summer League and in groups of 6 clubs now play home and away from May till end of August.

Numbers on club nights are picking up and although we are only playing Monday nights at present we aim to be playing again on Friday's as well very soon.

We re still looking for new players and members and anyone interested should come along any Mondy night (not Bank holidays) from 7.30pm for a try plus tea – coffee and biscuits.
