

BURSTALL WI REPORT FOR PARISH COUNCIL MEETING

Burstall WI continues to thrive and we now have 27 members. We have a full and interesting programme planned for this year and so far have enjoyed speakers on a wide range of subjects.

We started the year with a cookery demonstration and have gone on to learn about the history of fish and chips and then on a countryside issue we found out more about the not so humble stinging nettle. Last month members tried their hand at decoupage with some very pleasing results and hopefully this will inspire members to enter their creations in the Burstall Show this year.

We have reintroduced our monthly competitions with members being asked to bring along an item beginning with the same letter of the month that the meeting takes place. This has been well supported with some very interesting and sometimes amusing entries. The winning entry for the month of February was a fish finger, which tied in nicely with the talk that month being about fish and chips!
